When we login then we land on this Home page

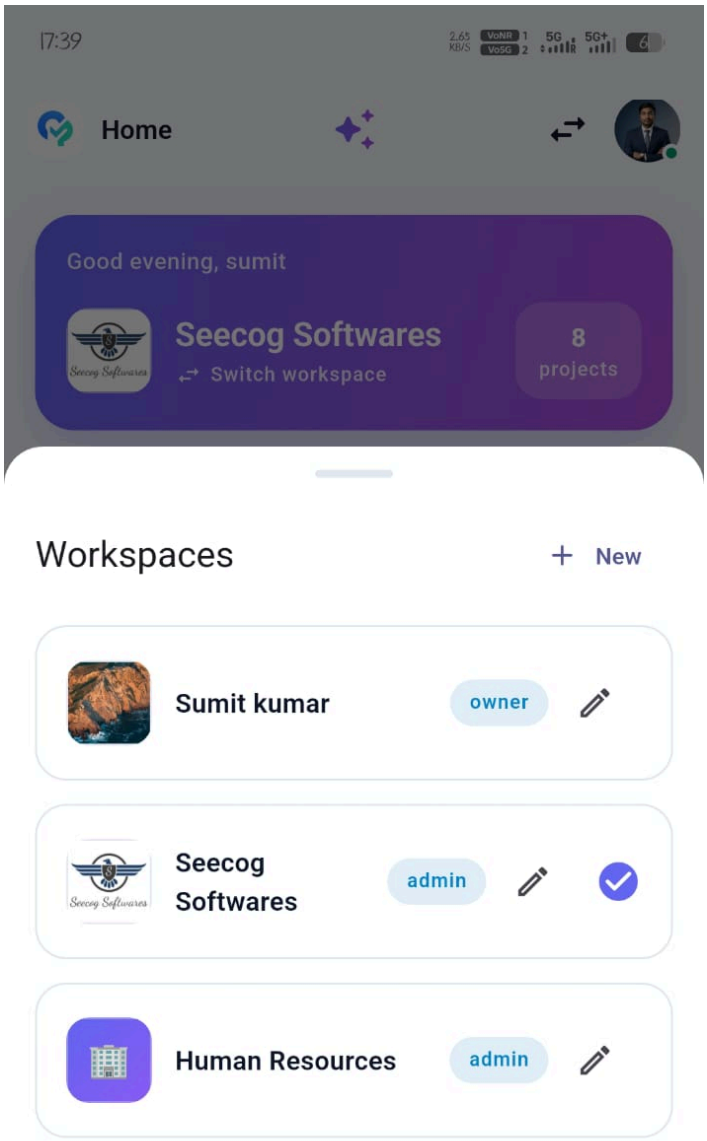

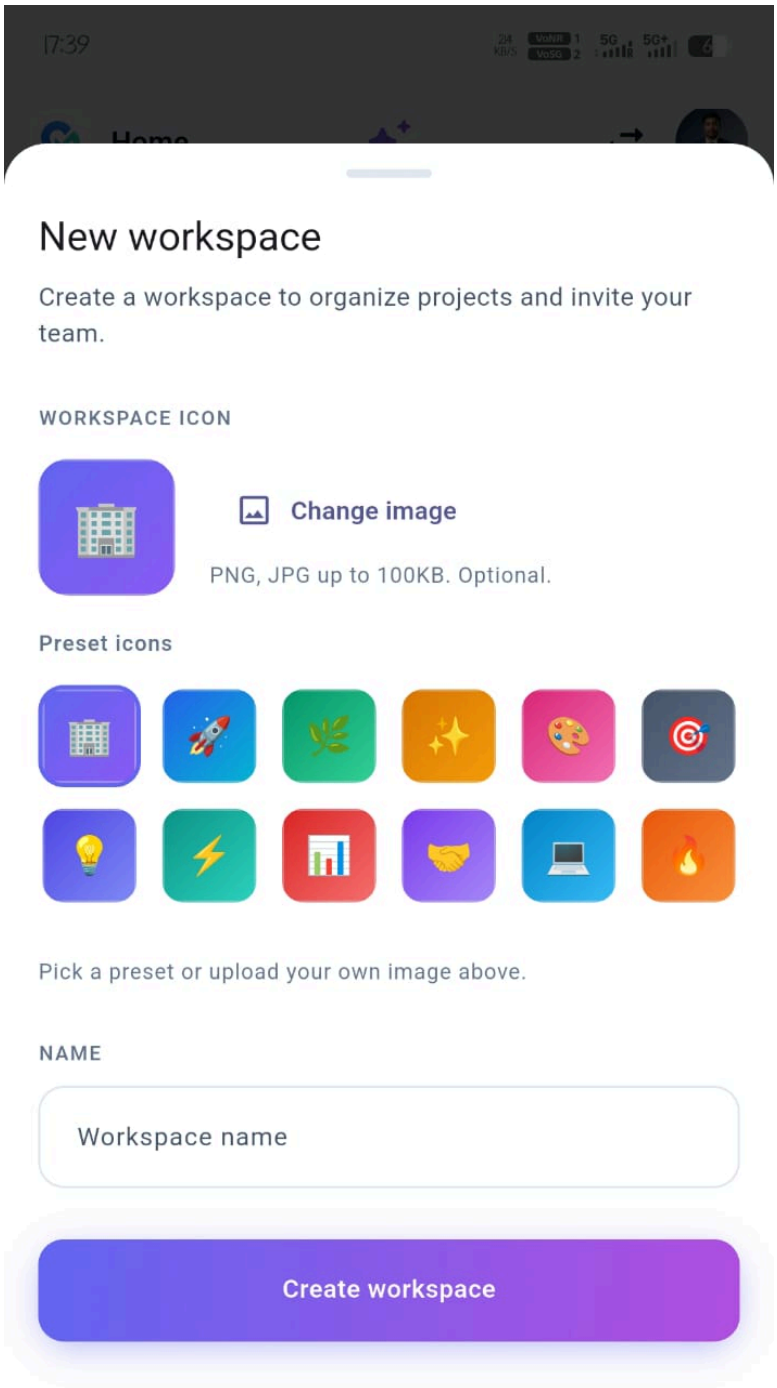

When we click on switch workshop

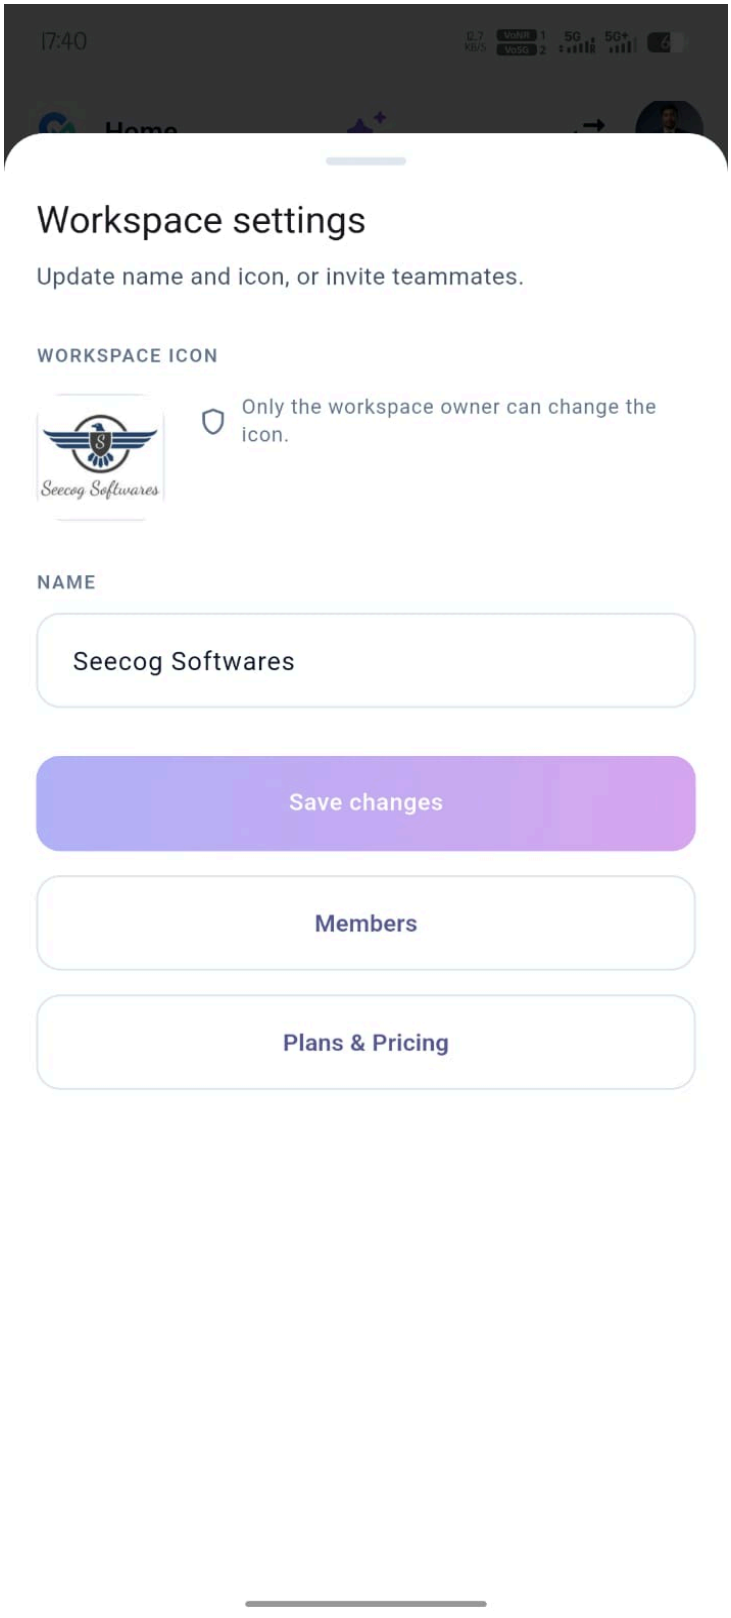

Then the below page opens

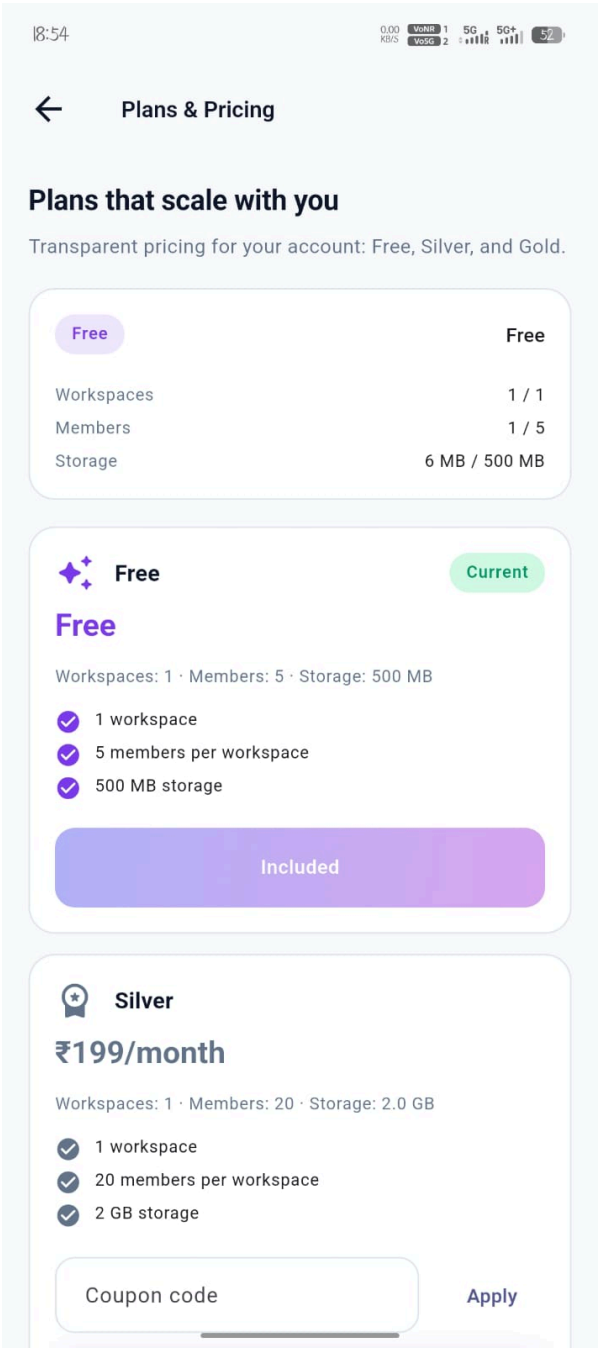

When we click on New button the Workspace creation opens

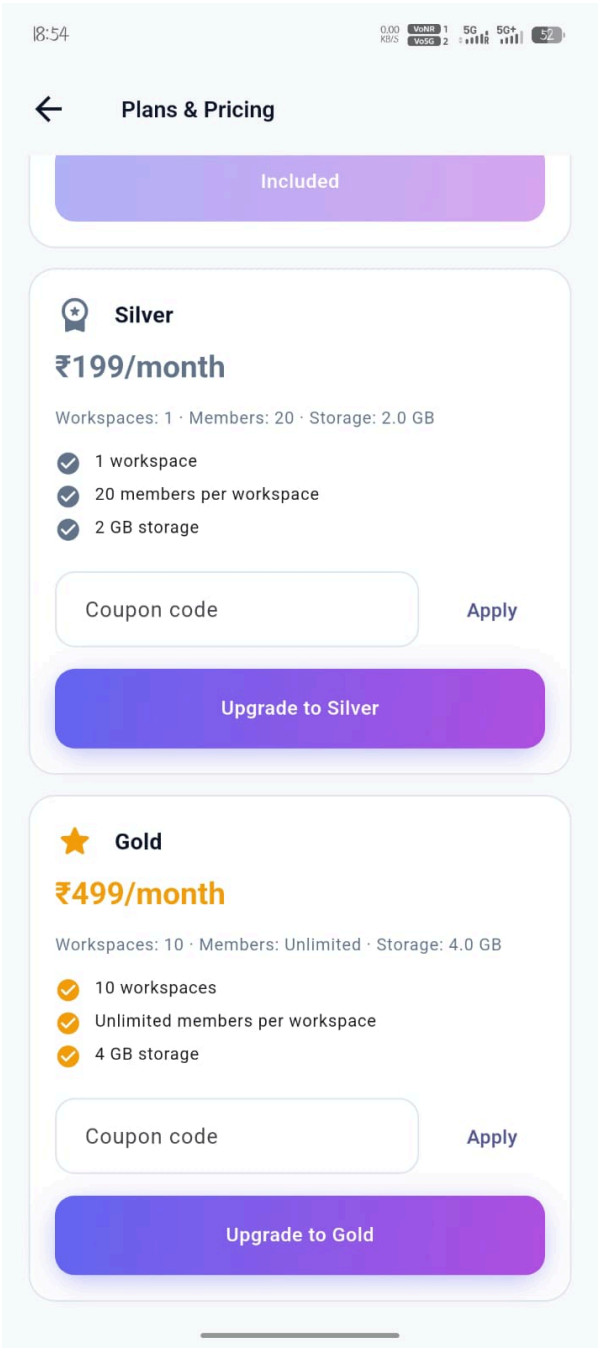

When we click on the edit workspace this page opens

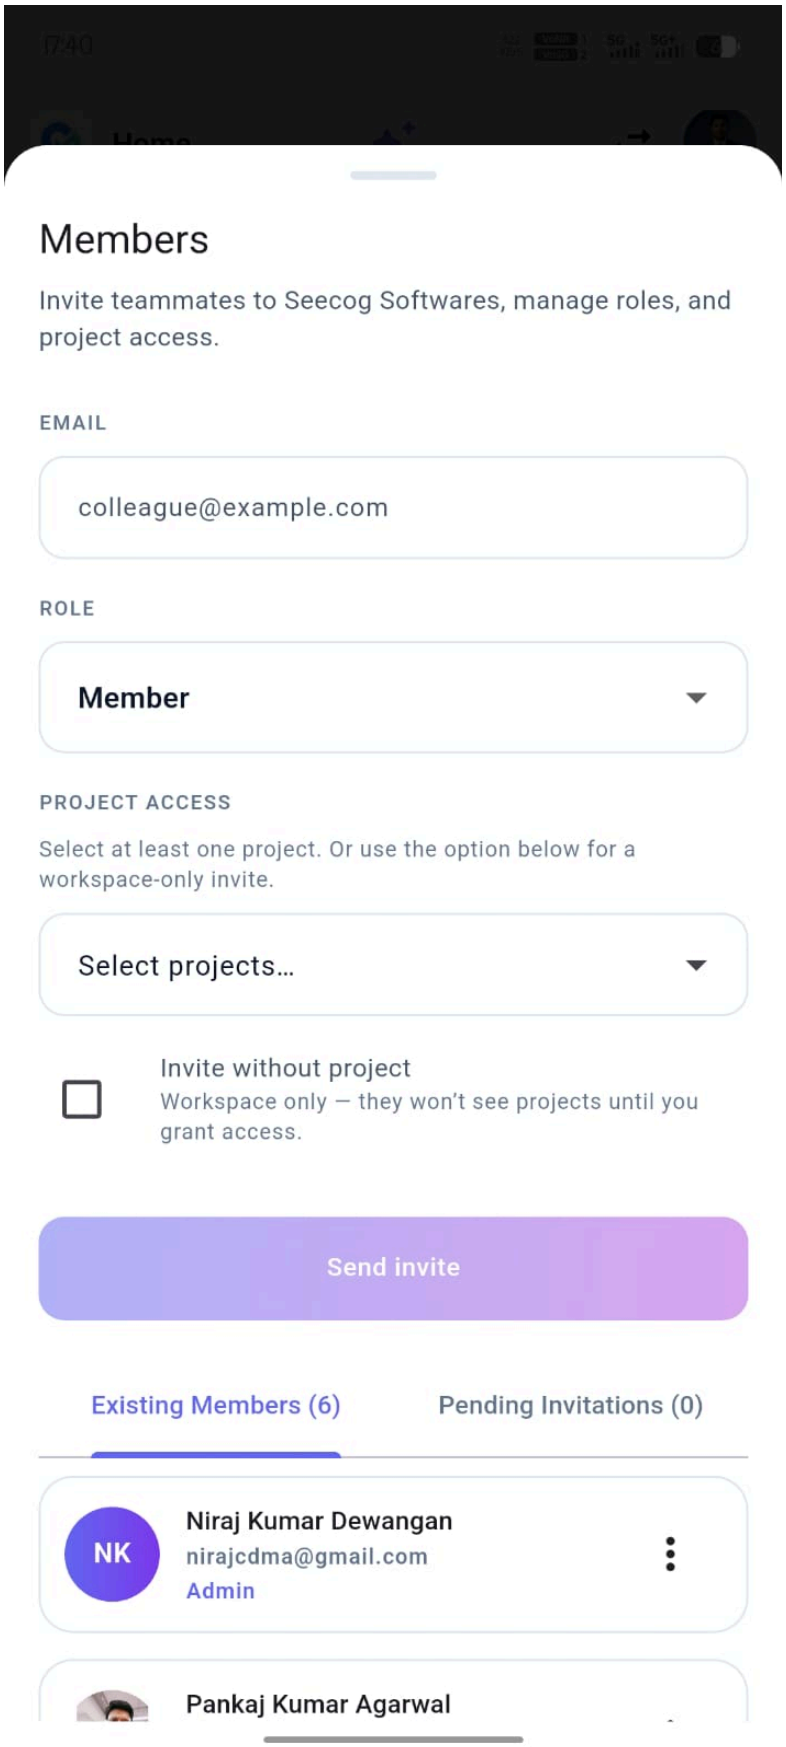

If we click on the Plans & Pricing

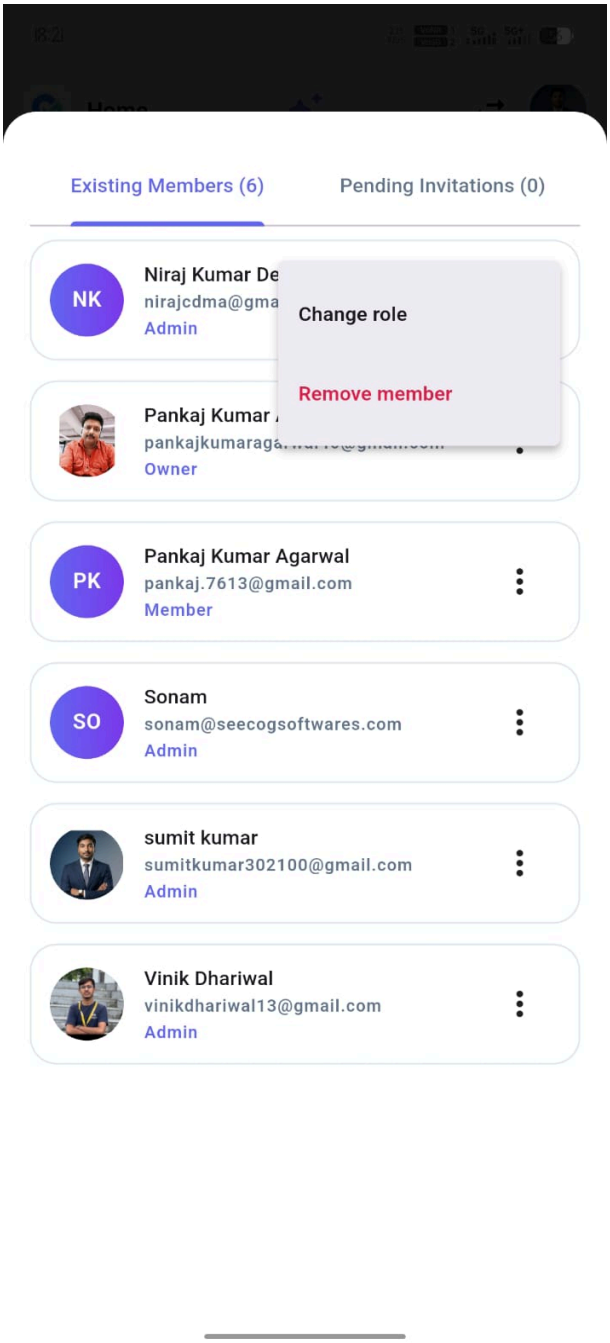

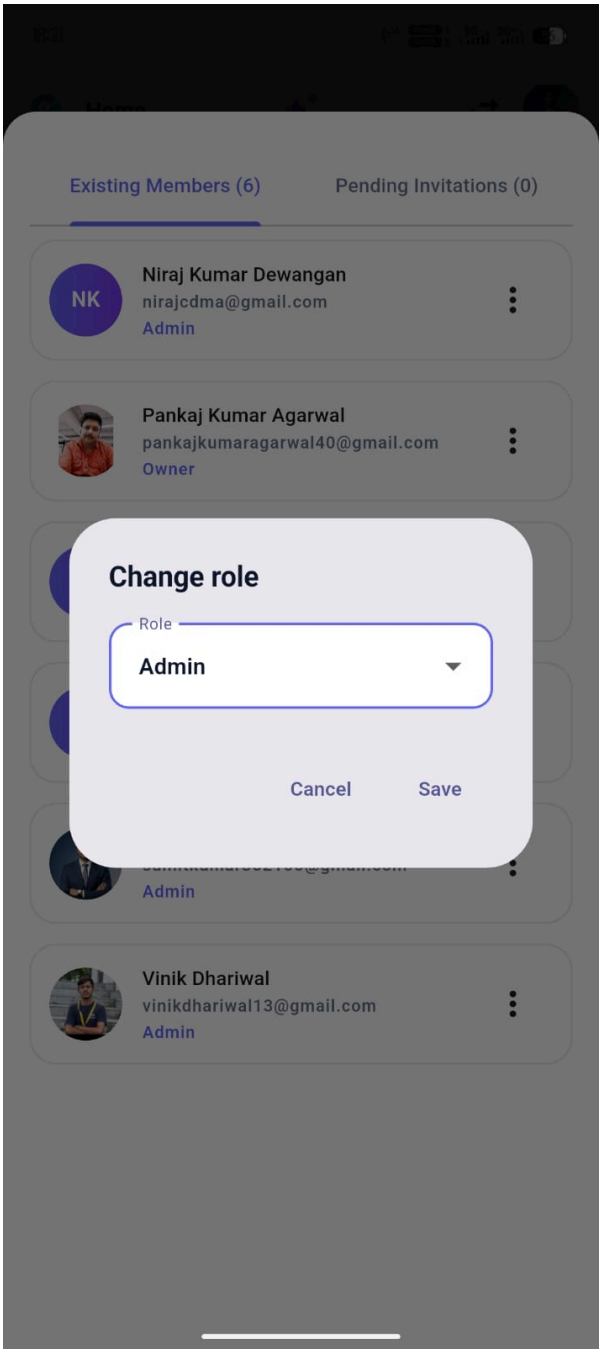

If we click on Members this page opens

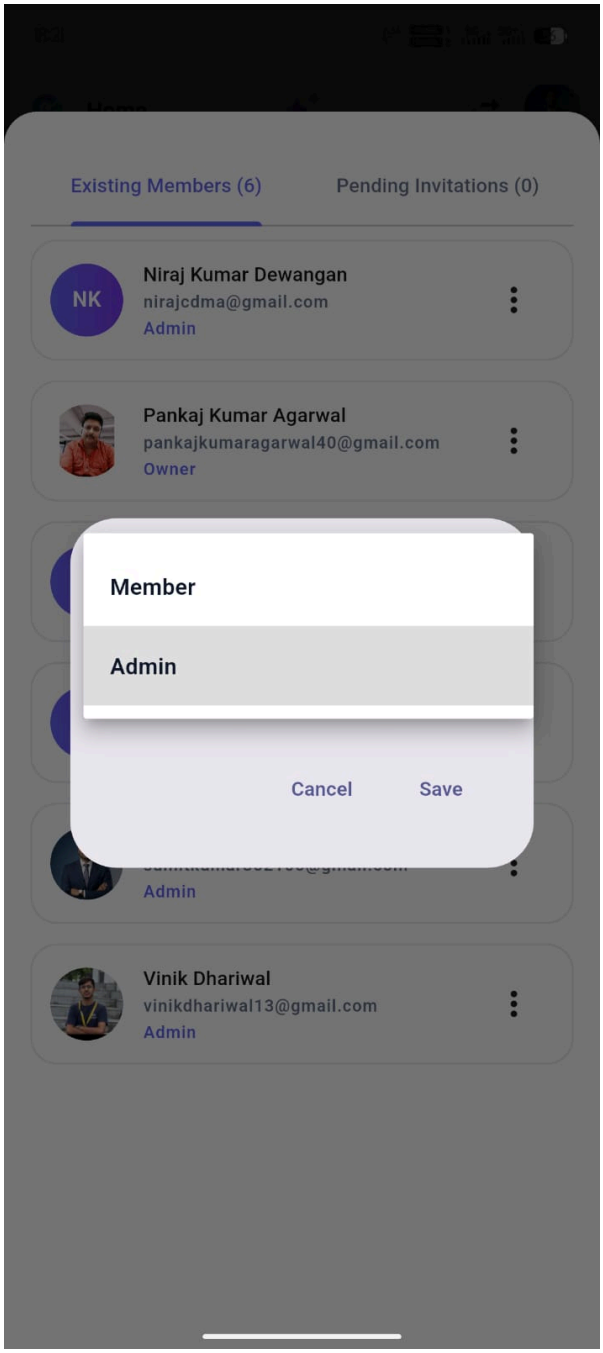

After we click the 3 Dots on the member

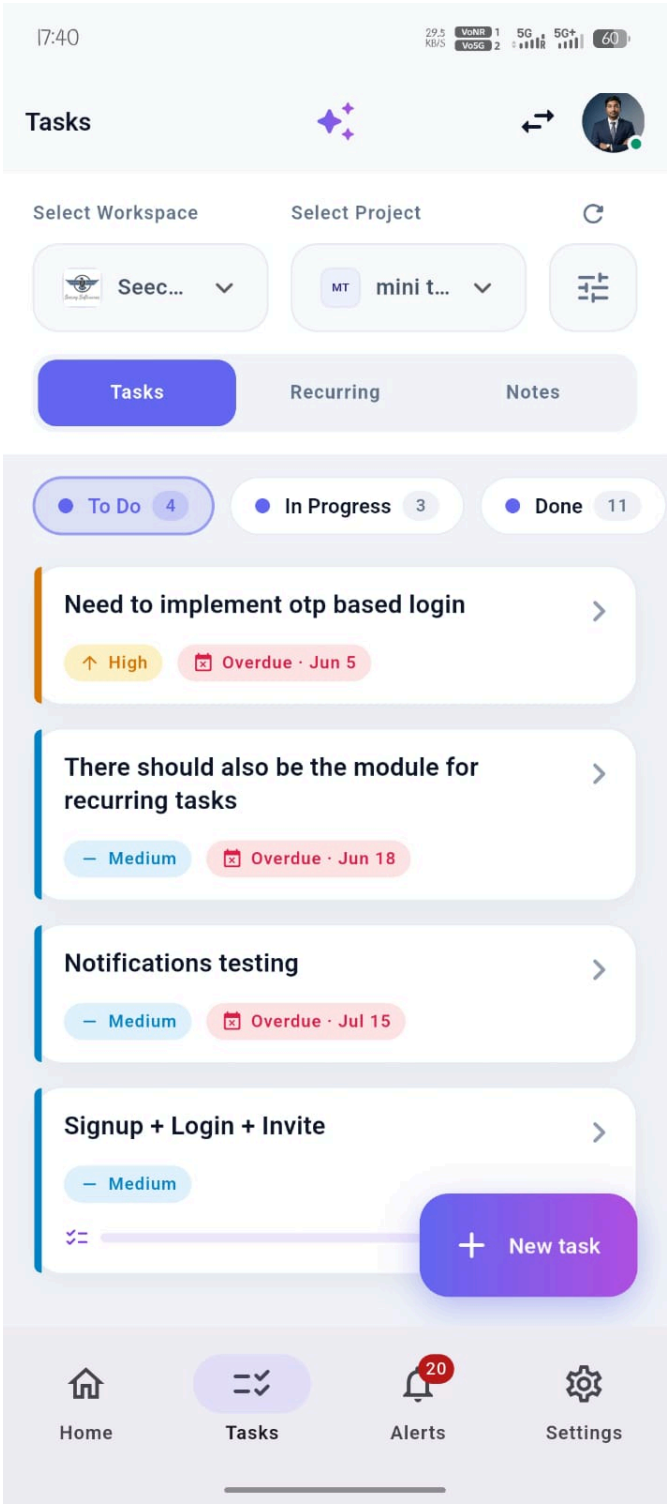

After clicking on the change role

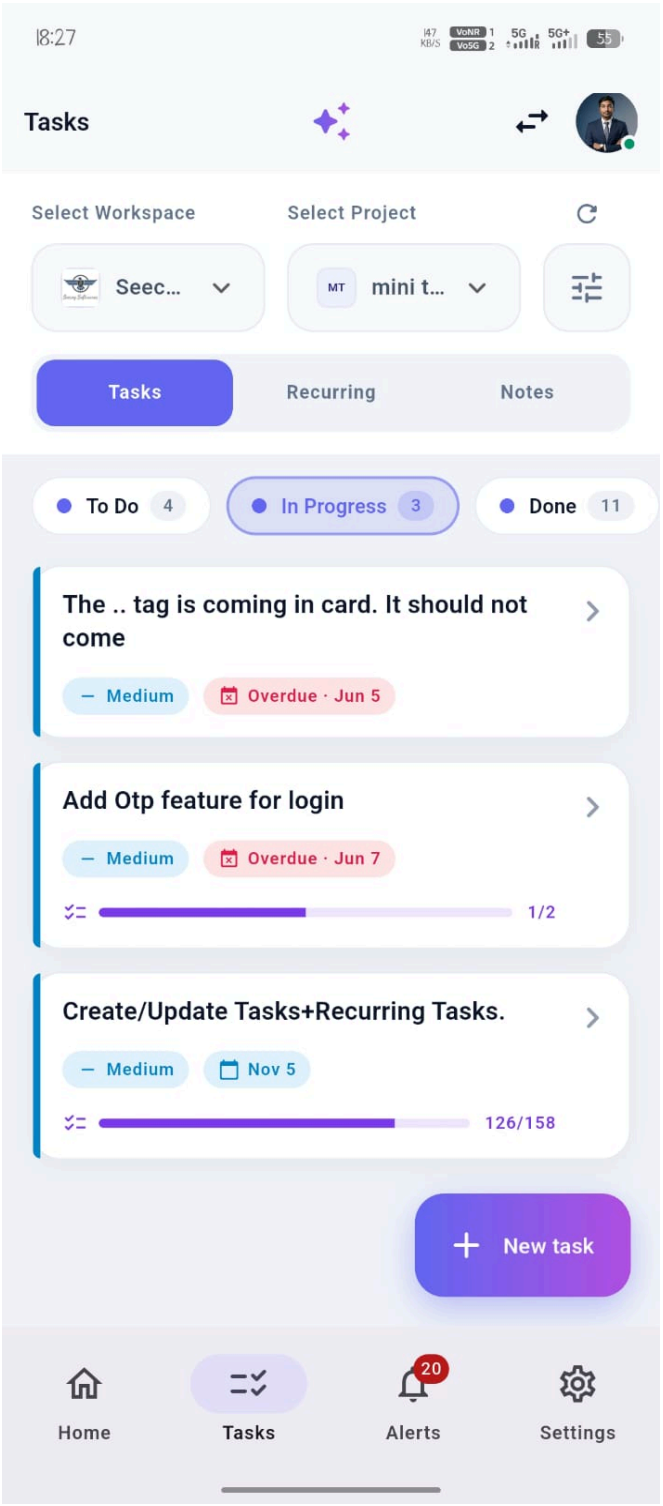

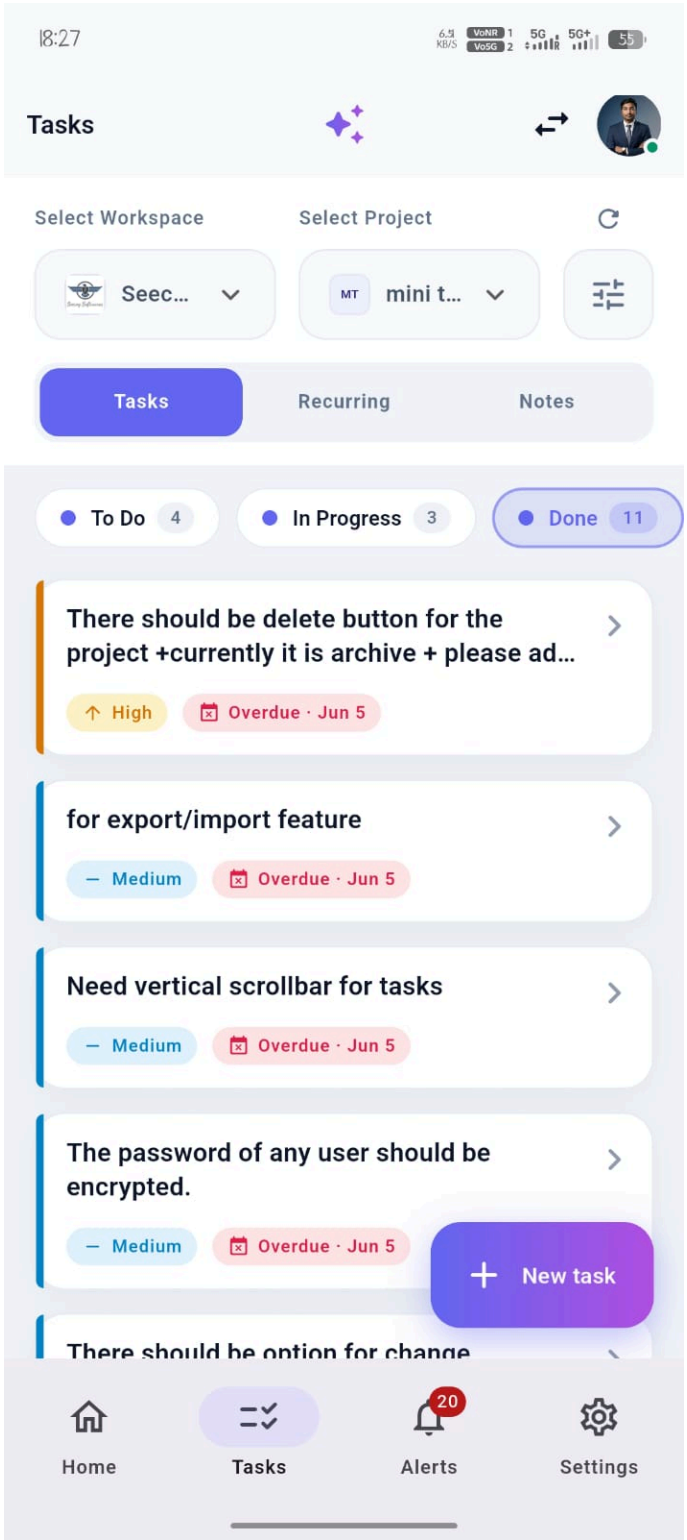

After that if we open dropdown this shows

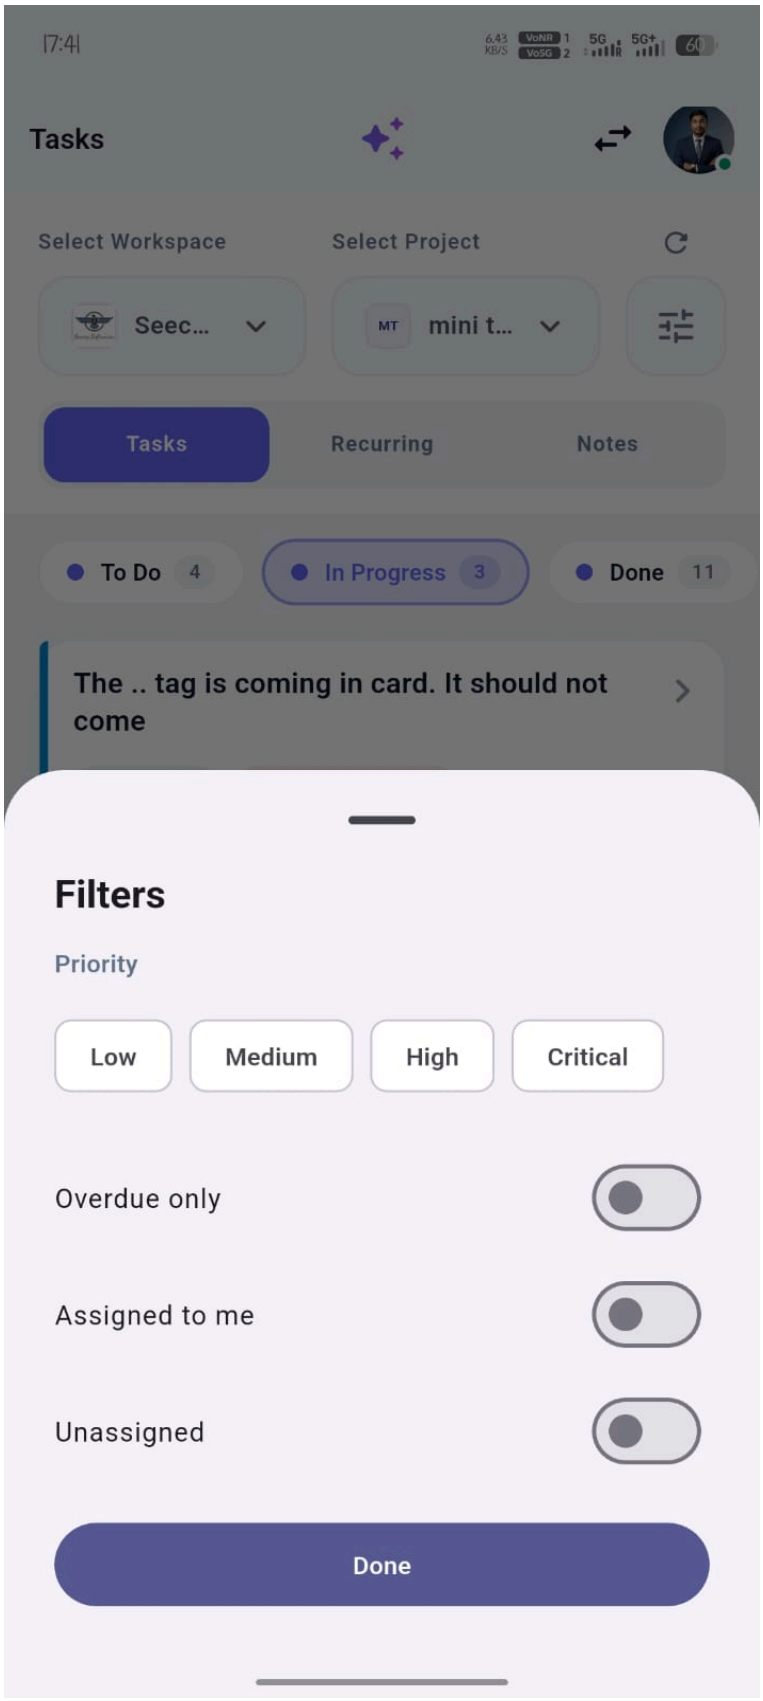

After going back to home we can go to Tasks tab

Settings

In tasks tab we can filter task using priority, overdue, assign to me etc.

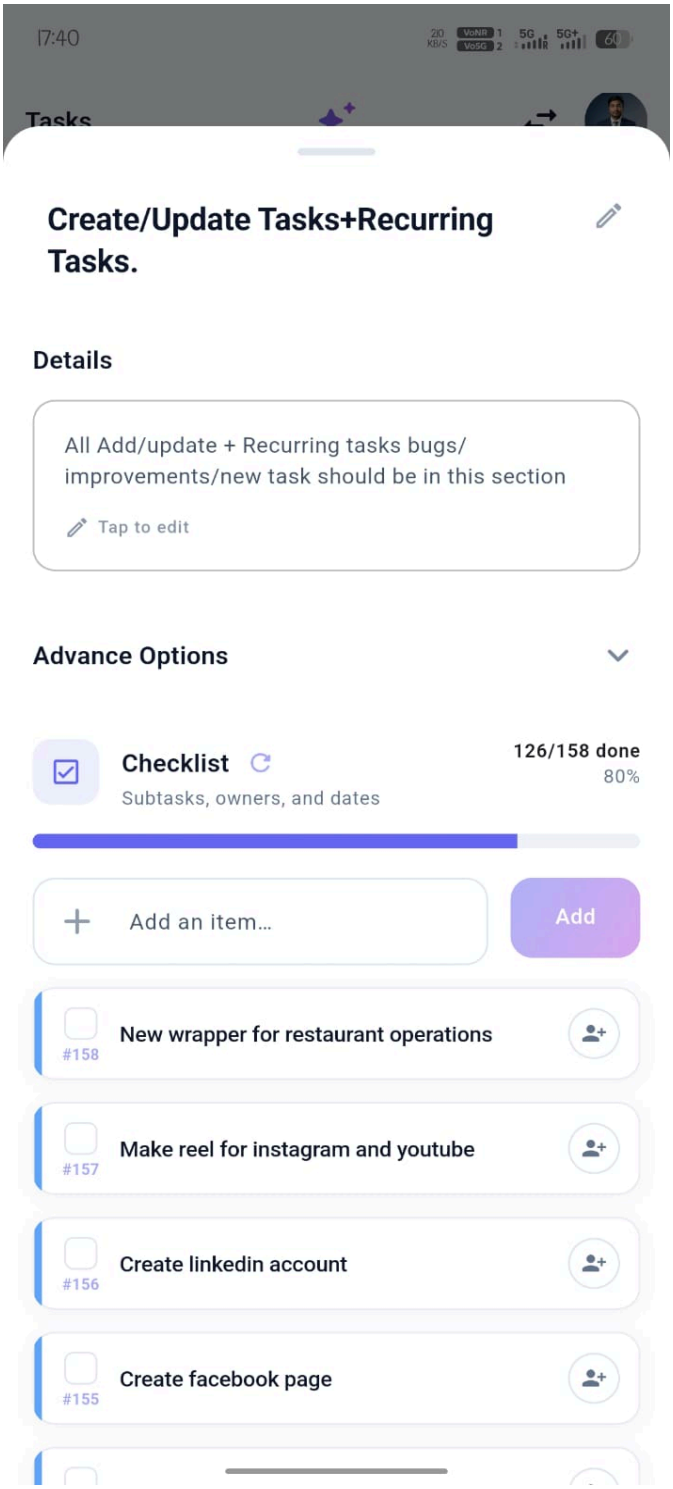

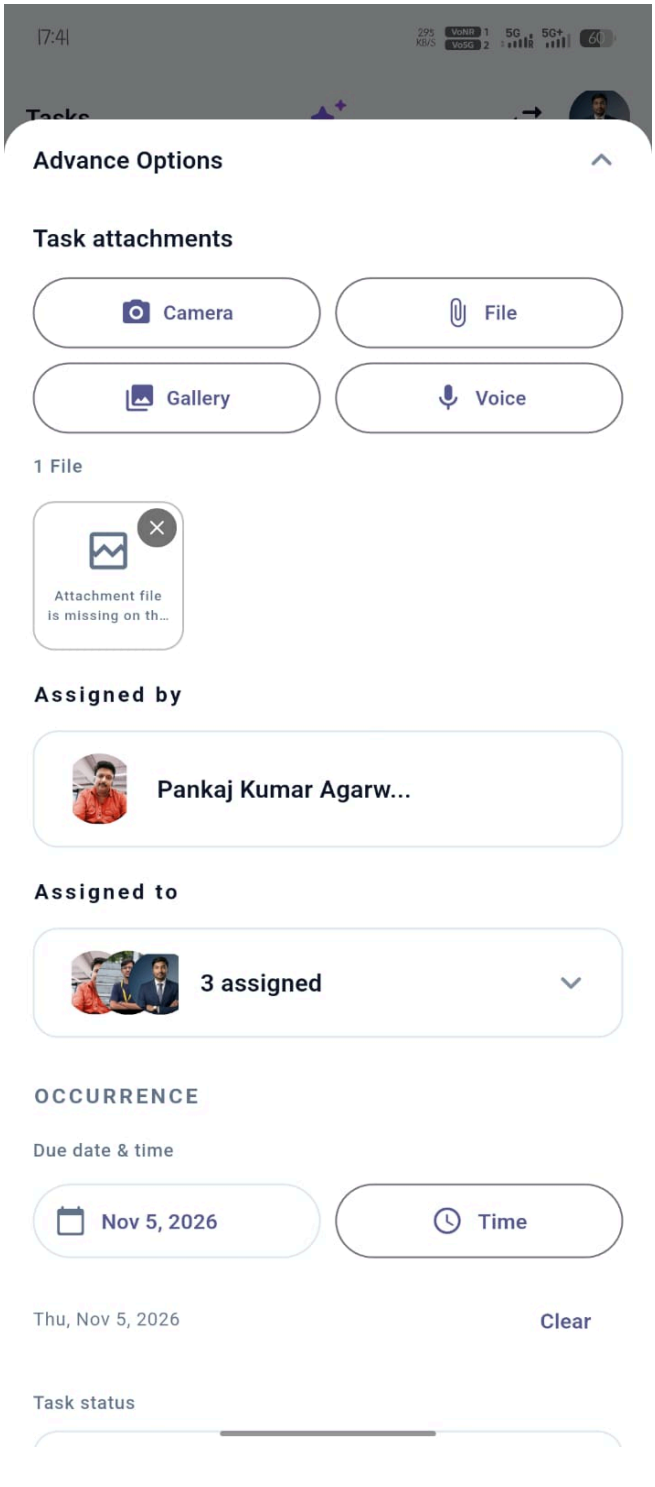

For creating new task we can click on the New task button

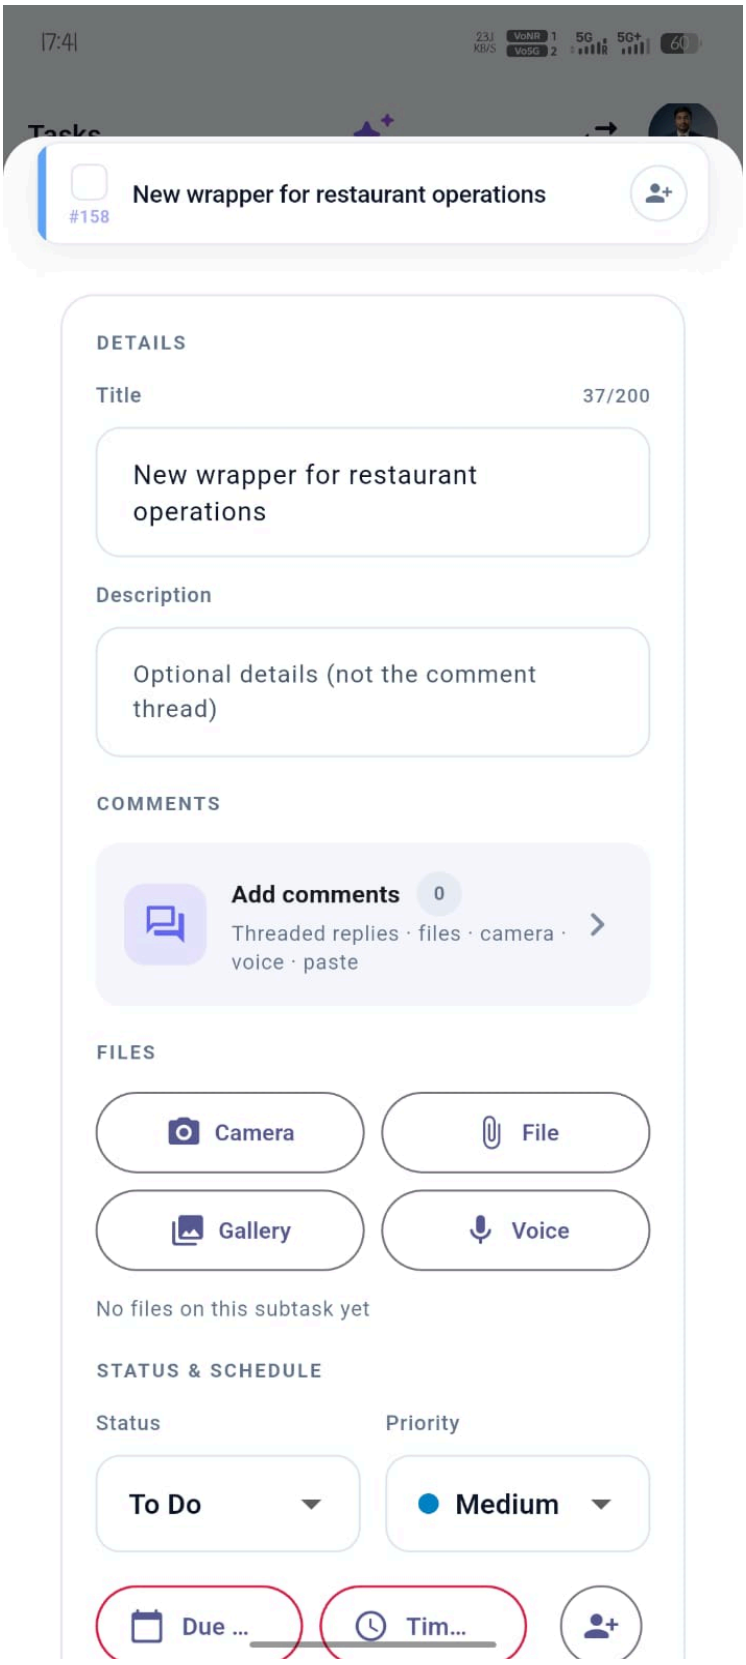

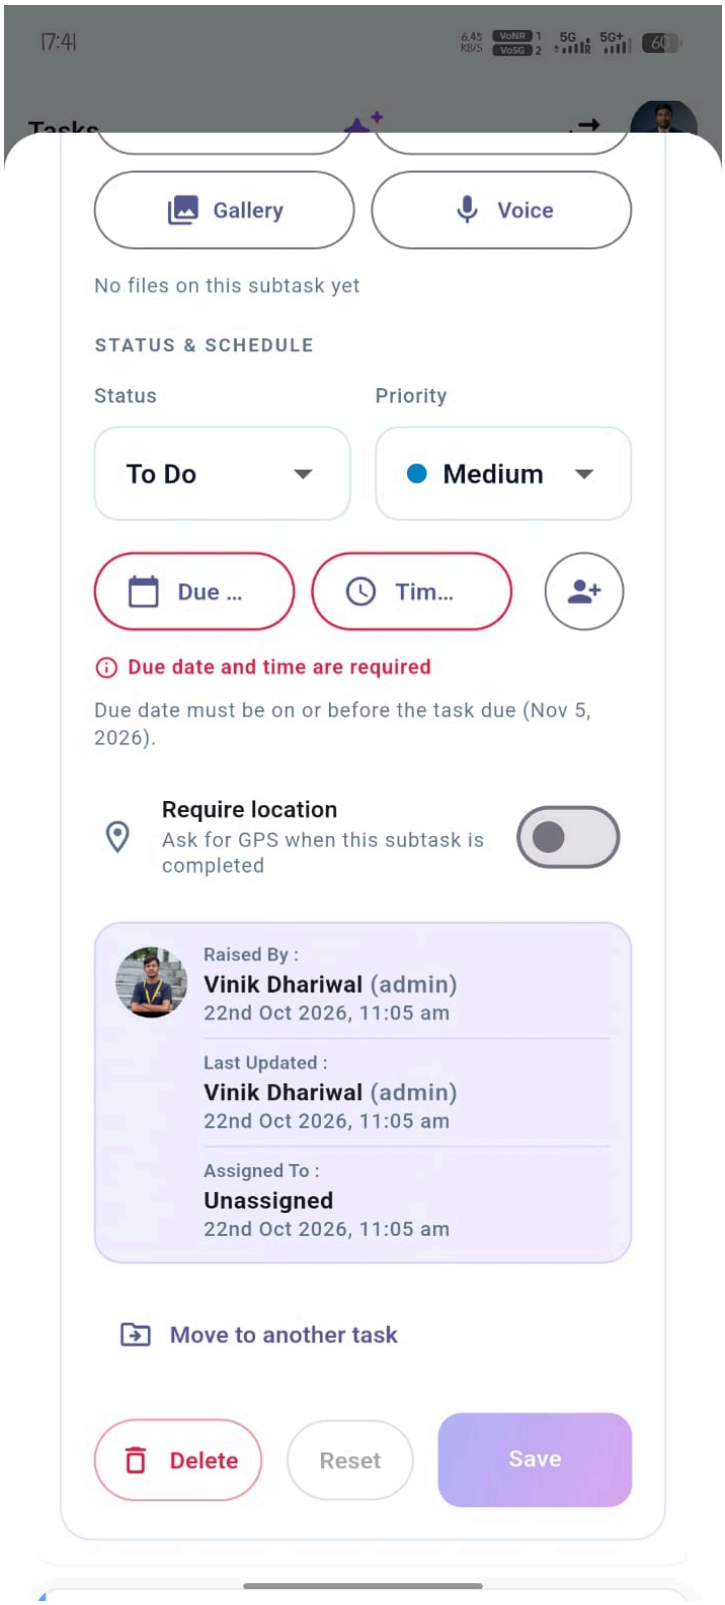

If we click on any task it opens like this

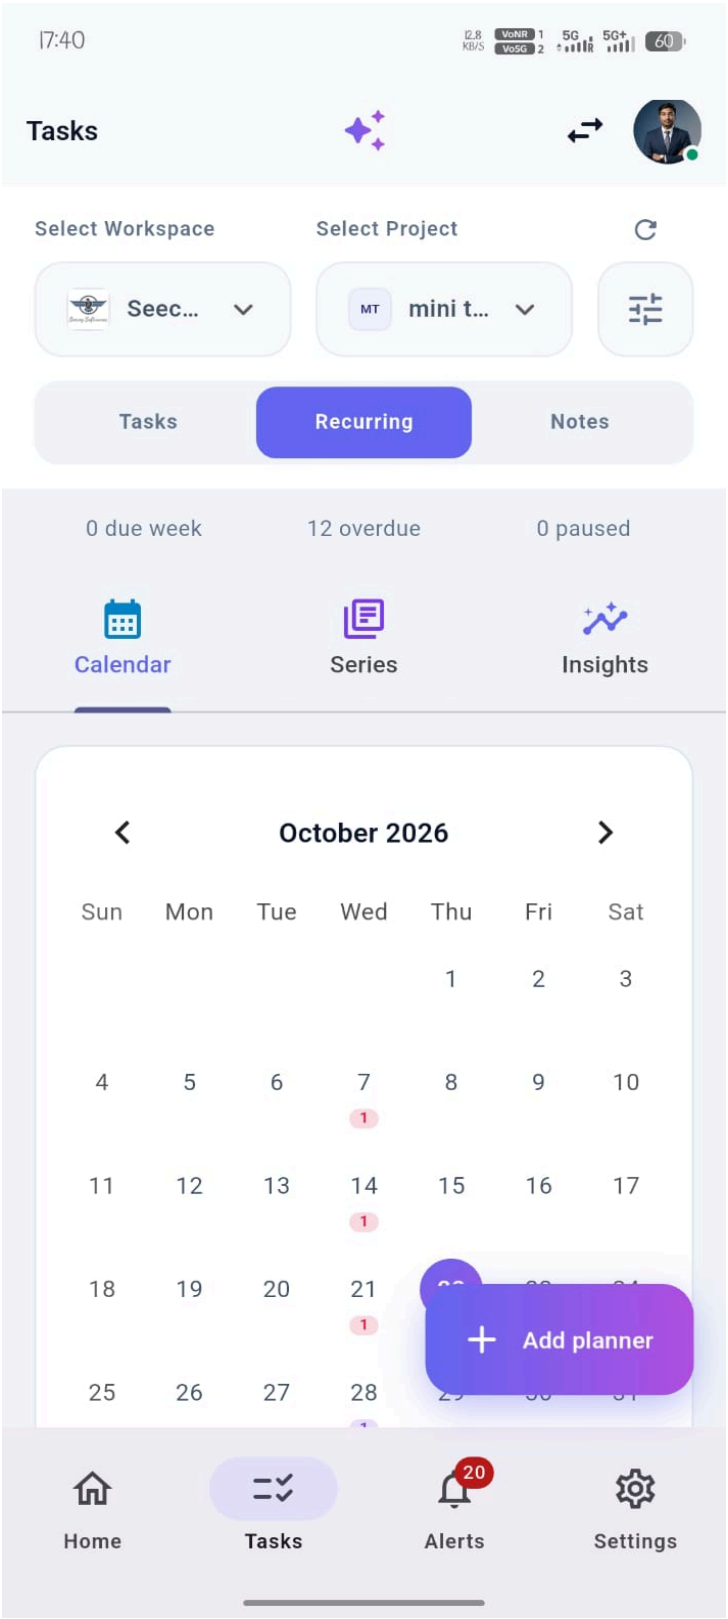

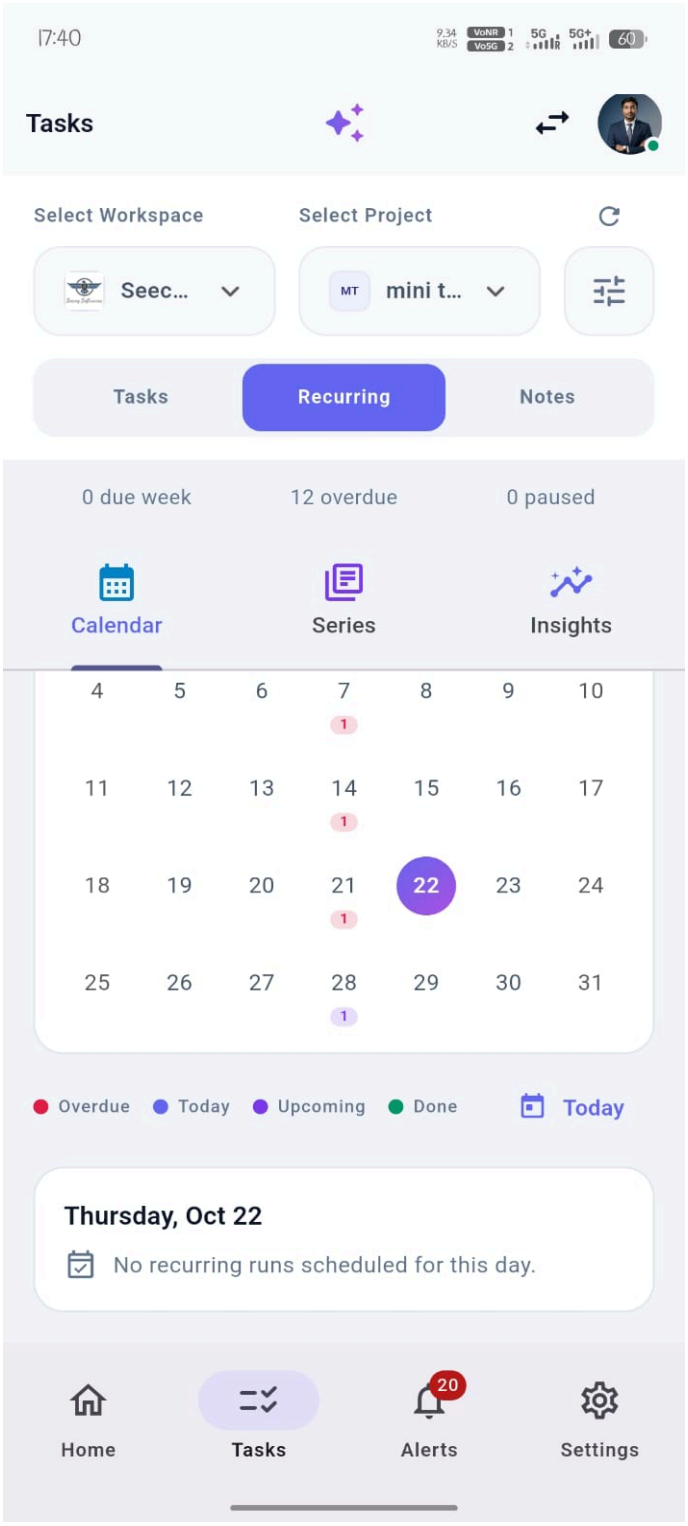

In task if we click any subtask it looks like that

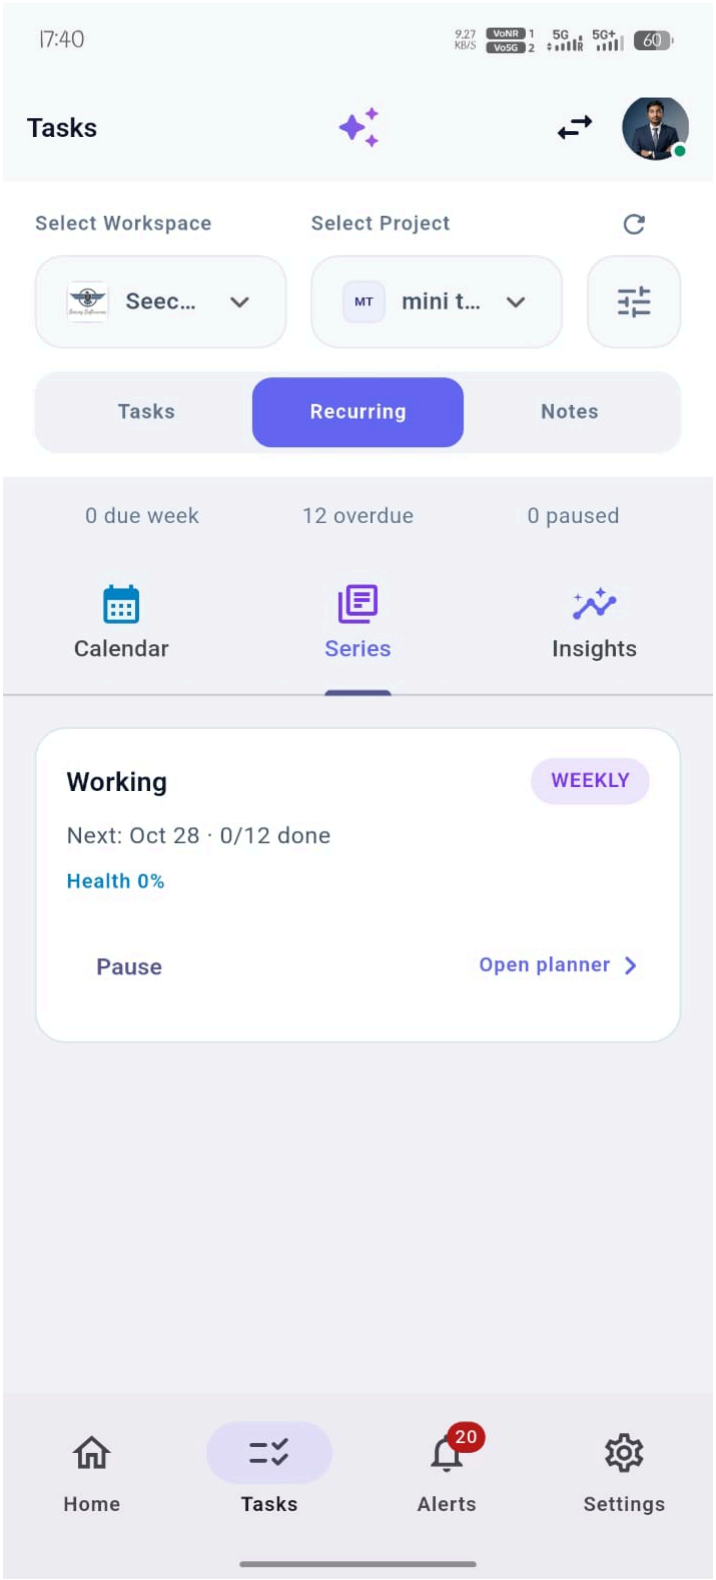

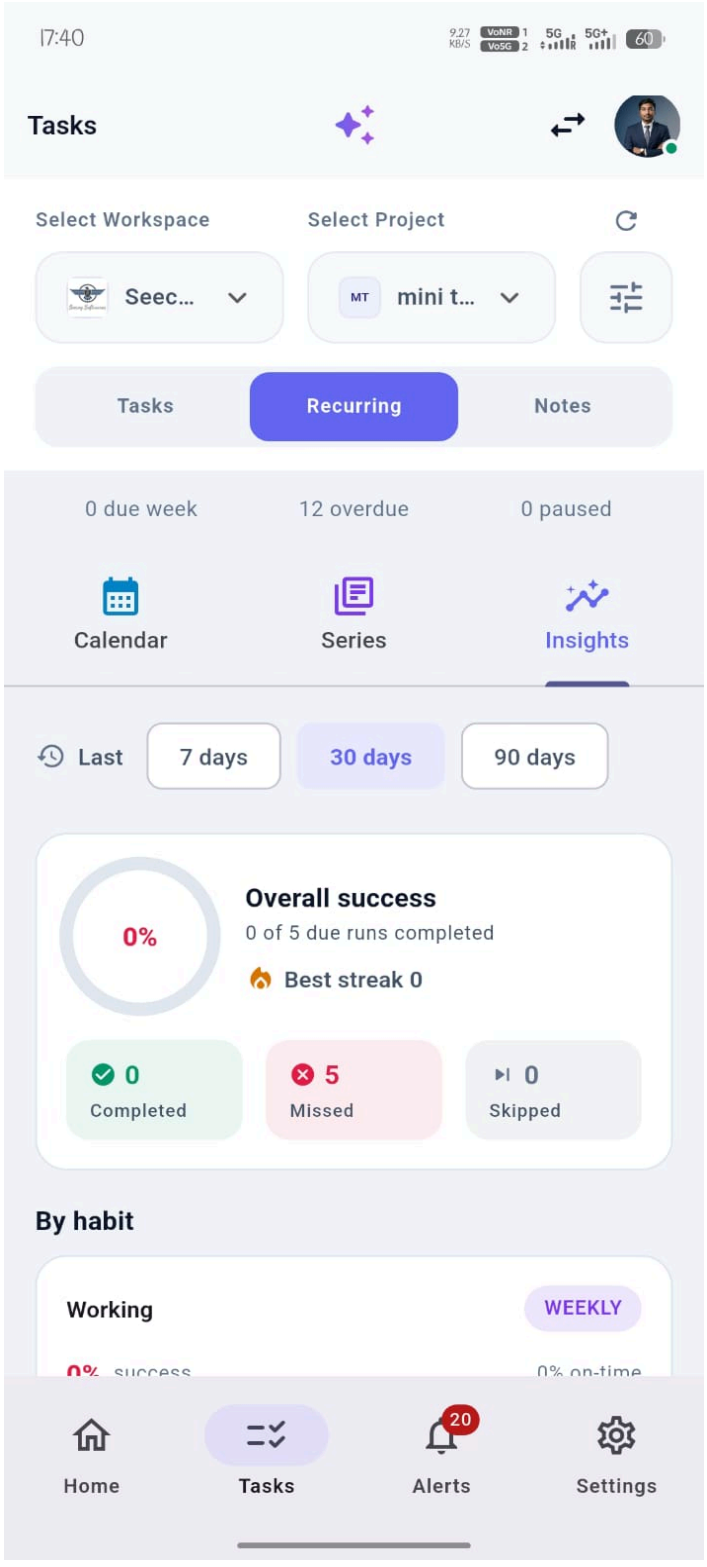

In tasks tab we have recurring option

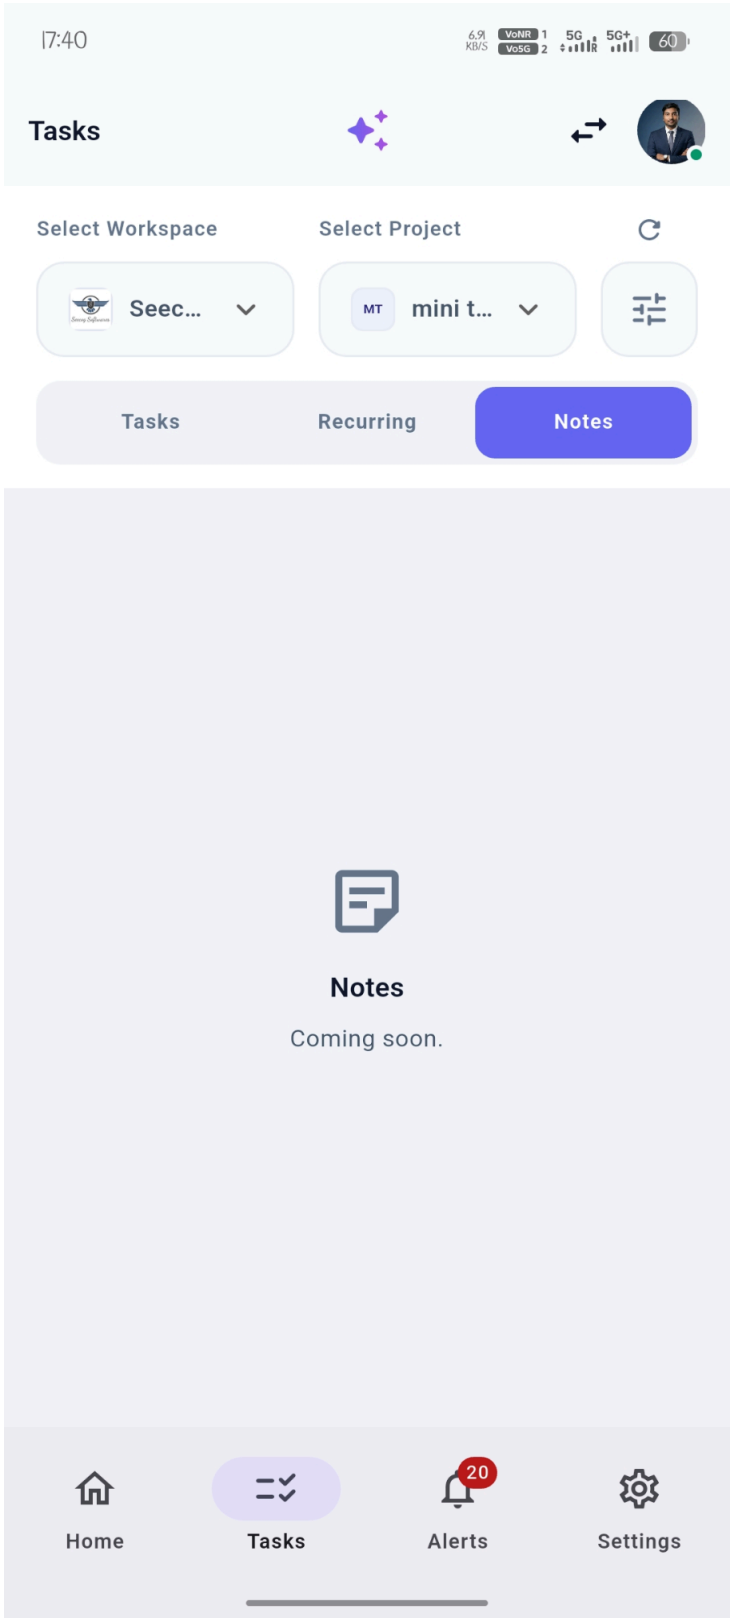

In recurring we have Series and insight tabs

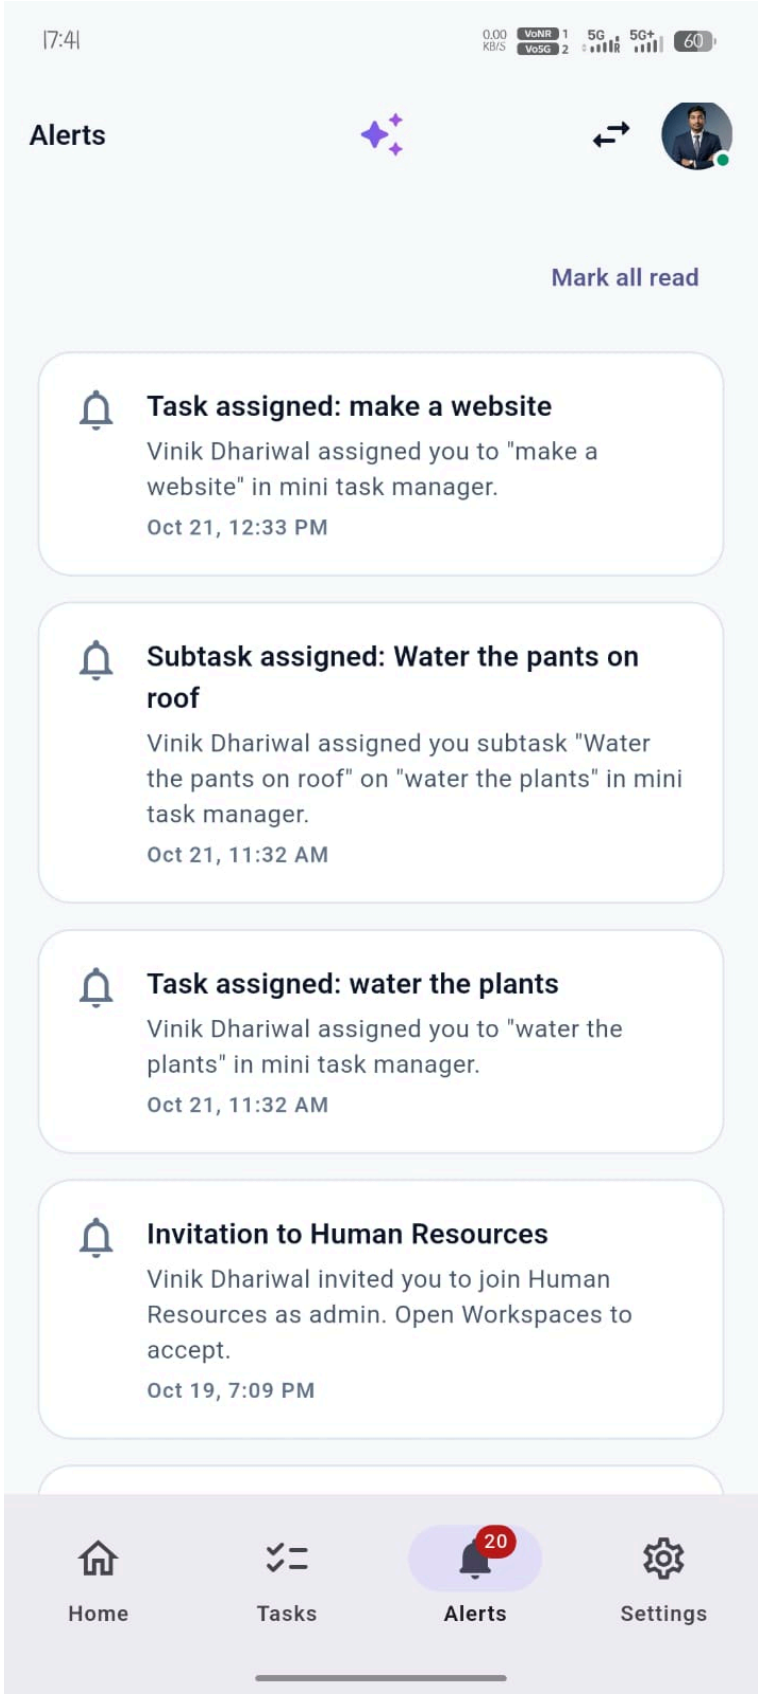

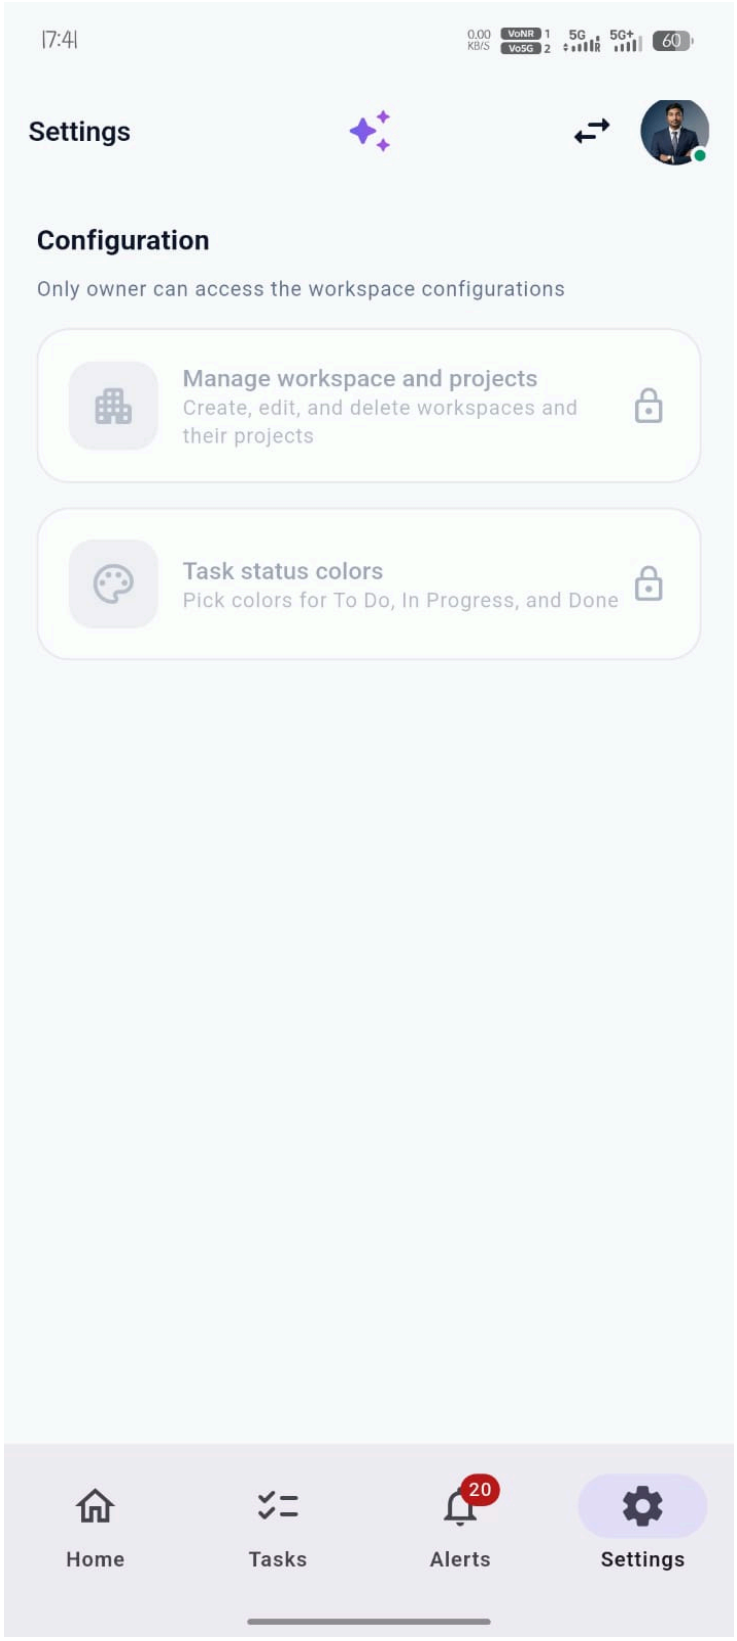

In Tasks tab we have Notes tab

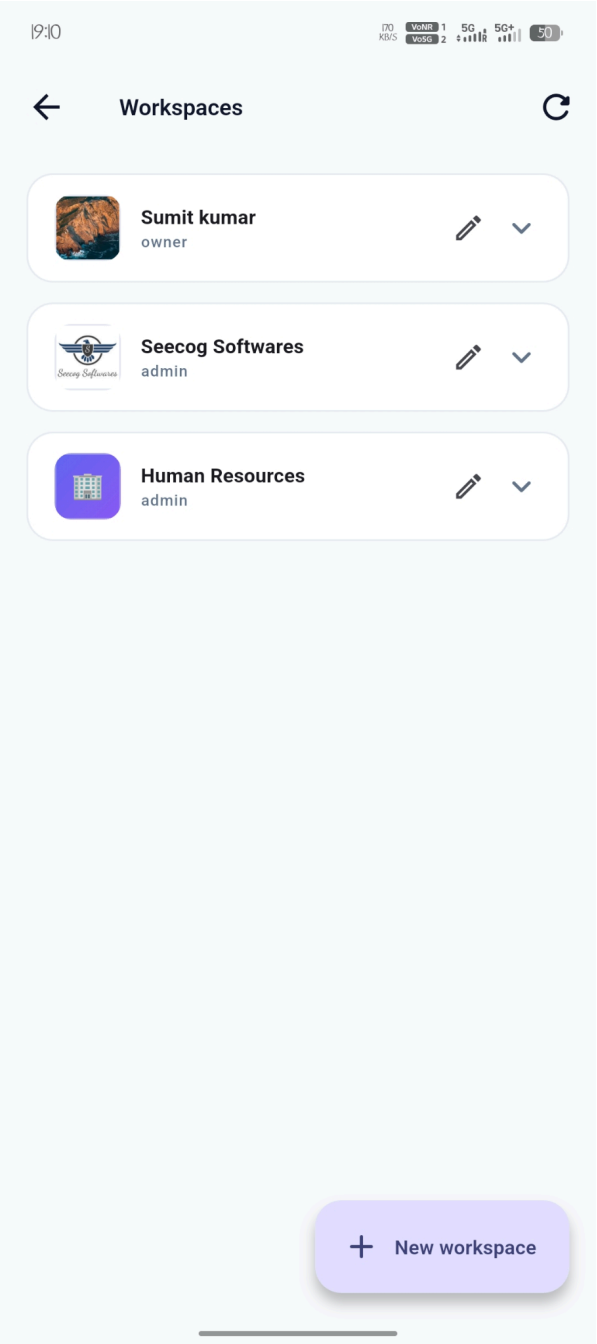

In navigation bar we have Alert Tab for notifications and alerts

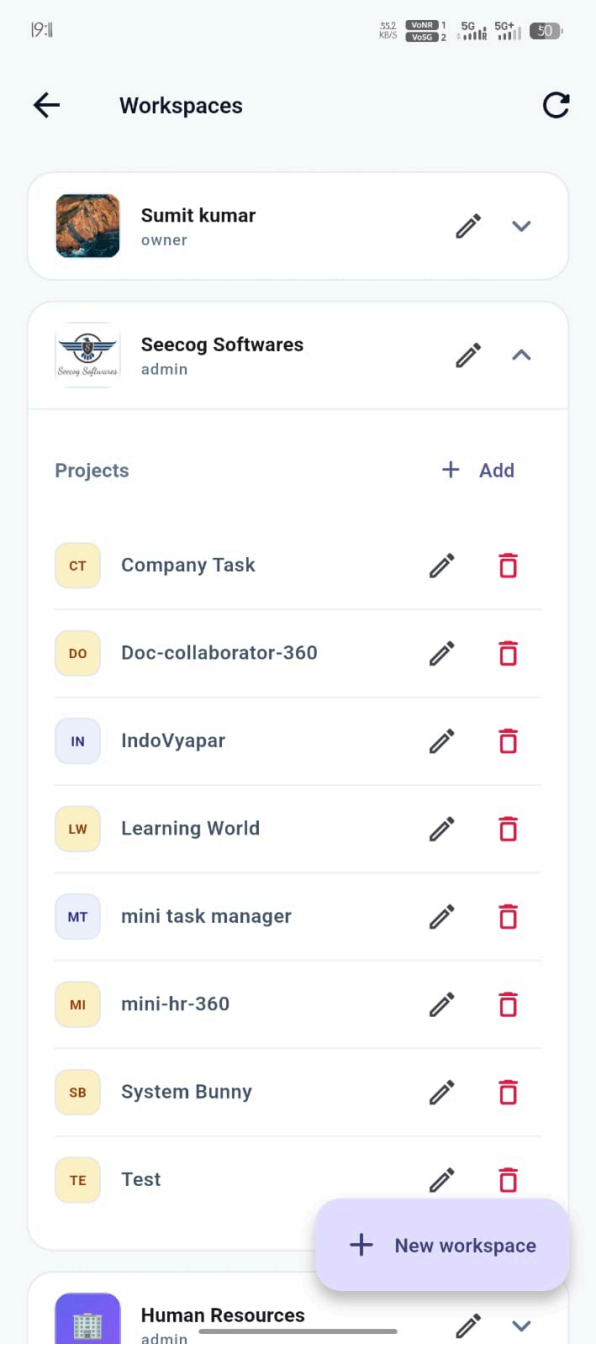

In navigation bar we have settings tab that only owners of the workspace can access

If we can open this it will look like this

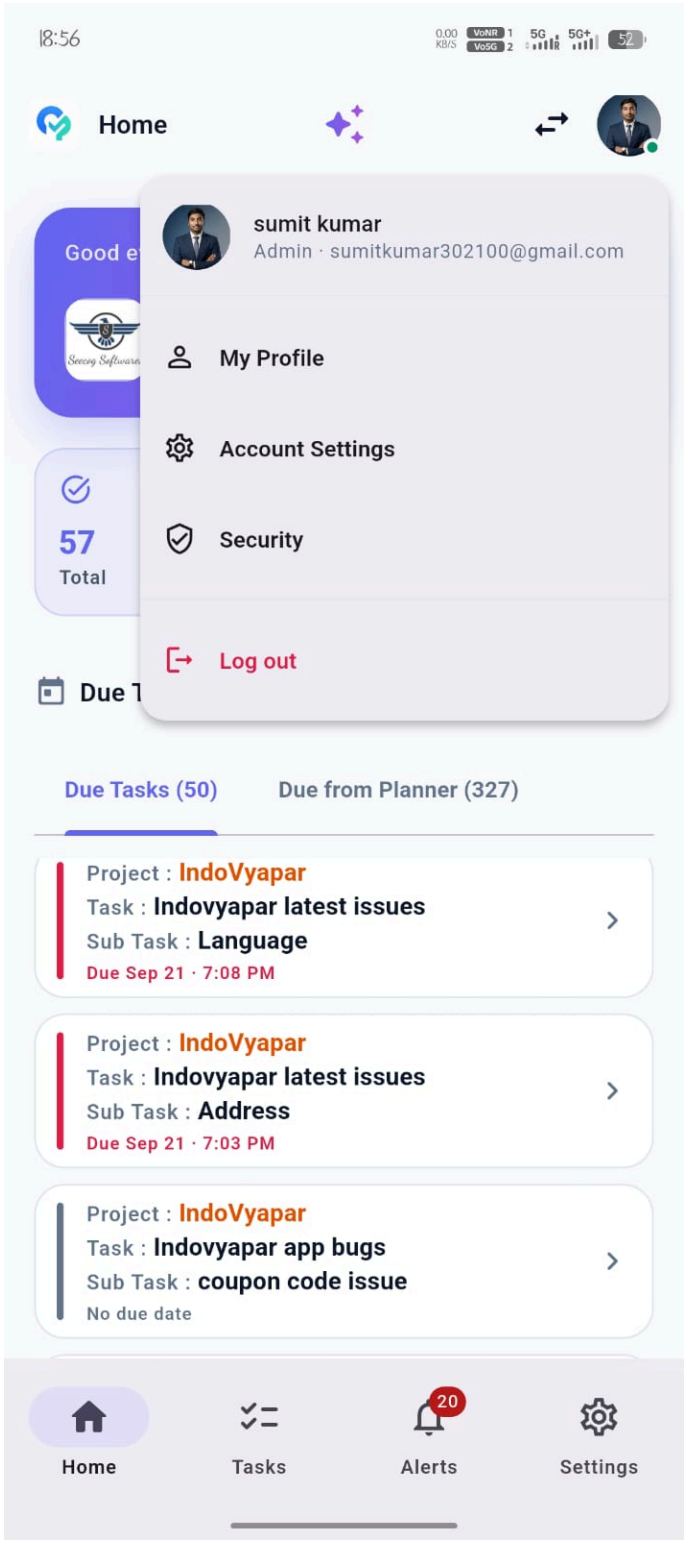

Then if we click on any workspace it opens list of projects

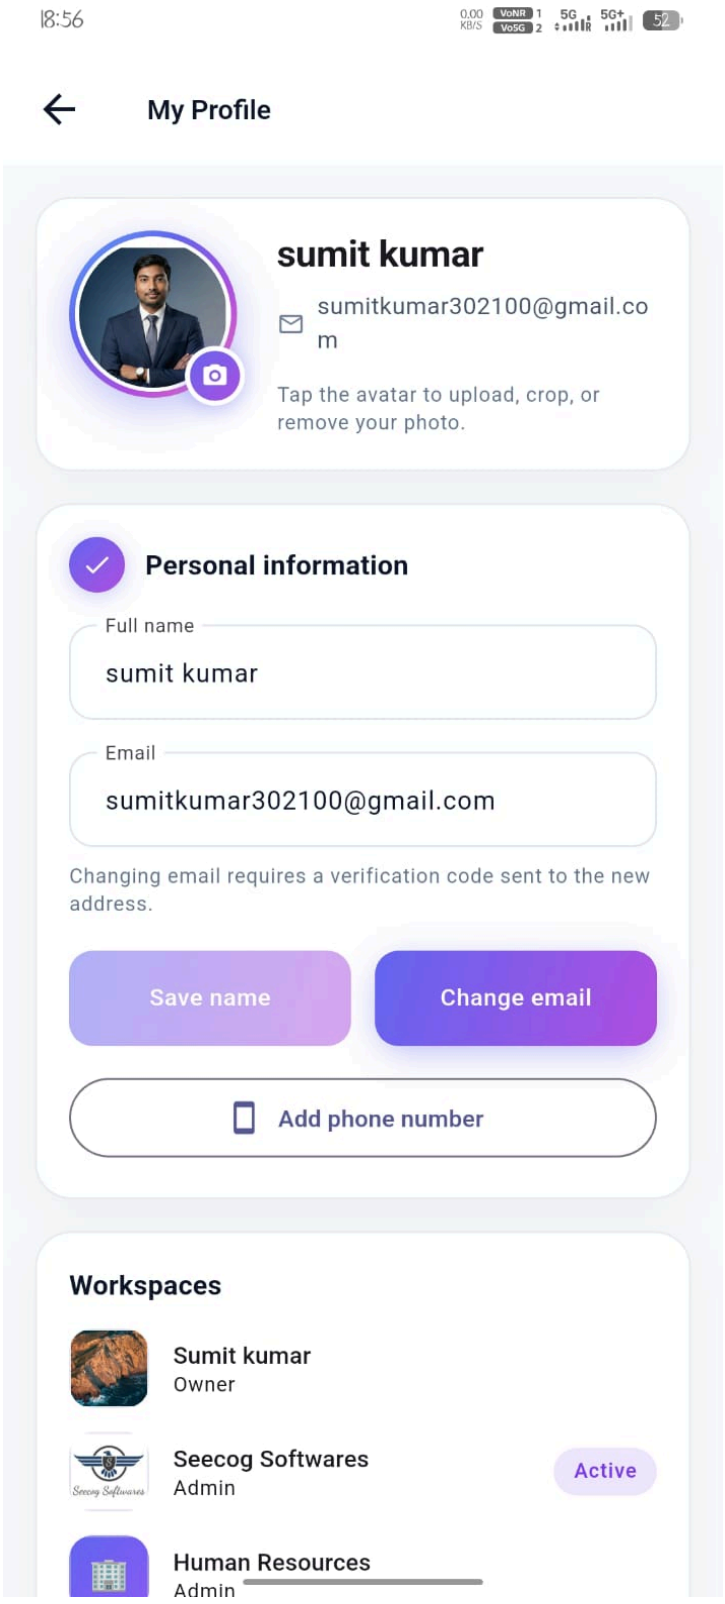

And the new workplace button opens the same page as page no. 3
And the edit button opens the same page as workspace edit button
In here we can create and manage the projects and workspaces

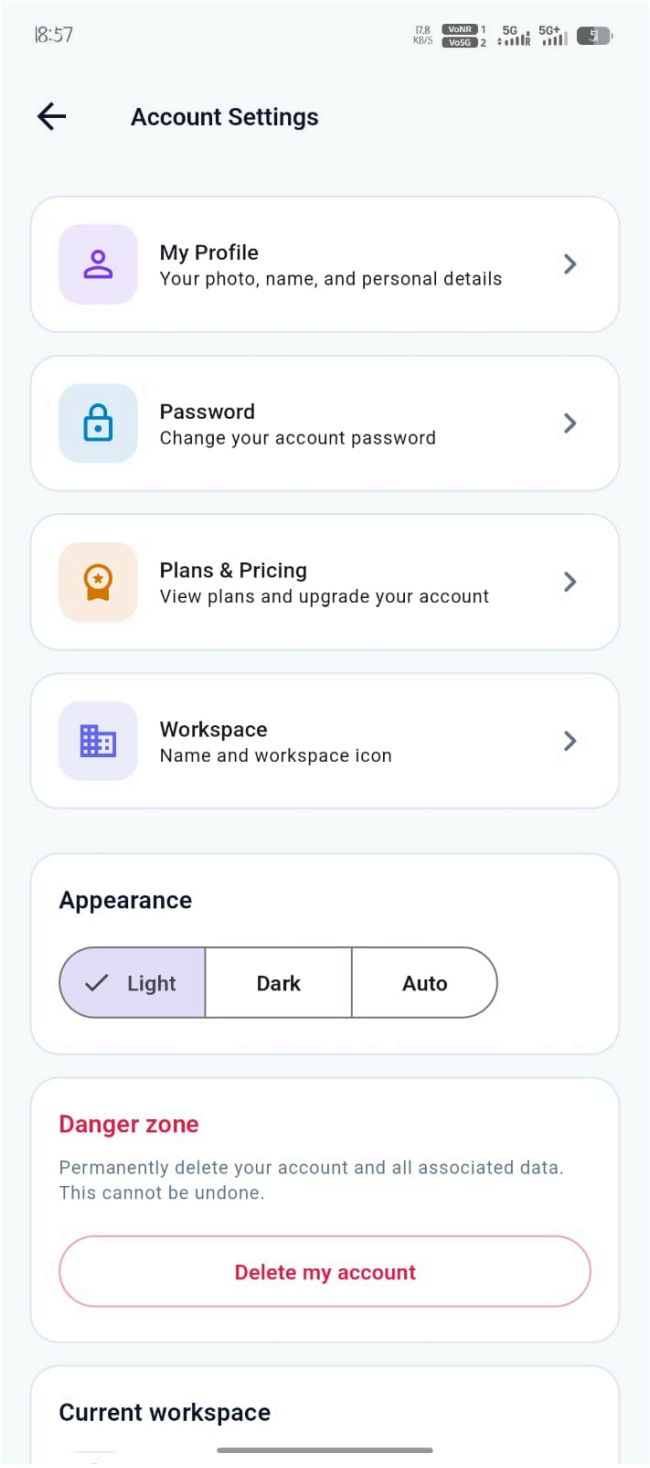

If we click our profile we see these options

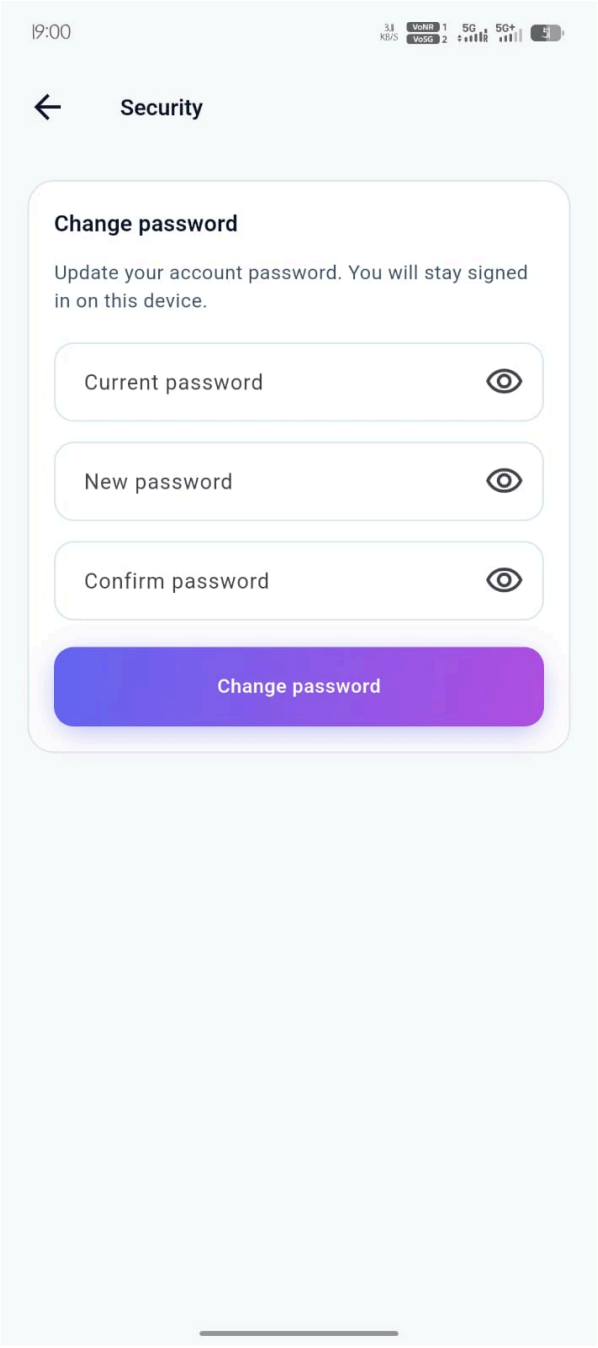

After if we click on my profile we see these

In profile if we click on Account Settimgs we see these options

This is change password section

In here my profile opens the same page as my profile from before this page(page 21)
And plans & pricing opens same page as page 5
Workspace opens same page as page no. 2
